

Tables often require flexibility to enable rooms to be quickly reconfigured for seminars, presentations or social functions.

To fulfil this need we have designed a range of modular tables, including our Flipper mobile table and our Stott folding table.

This shot shows our Stott folding table in figured maple with polished aluminium legs, corner brackets in RAL 9006 powder coat finish.

**Flipper mobile table:** Shown with our versant foot. Also available with our FB foot with concealed castors and arc base.

All options are available in satin or mirror polished stainless steel. Tops available in veneer, laminate or linoleum. Frame available in a range of RAL colours.

**I x w:** 1600 x 800mm, or 1800 x 900mm

Can be supplied with a removable power box and cable spine.

**Stott Folding Table:** Veneer, laminate or linoleum tops. Legs in polished, brushed or powder coated aluminium. Corner brackets etc. in powder coat finish. Legs can also be supplied in solid timber.

**I x w:** 1600 x 800mm, or 1800 x 900mm

Can be supplied with a removable power box and cable spine.

**Clipper base:** Shown here in brushed stainless steel
